

Assigning an Issue to a New User in Jira

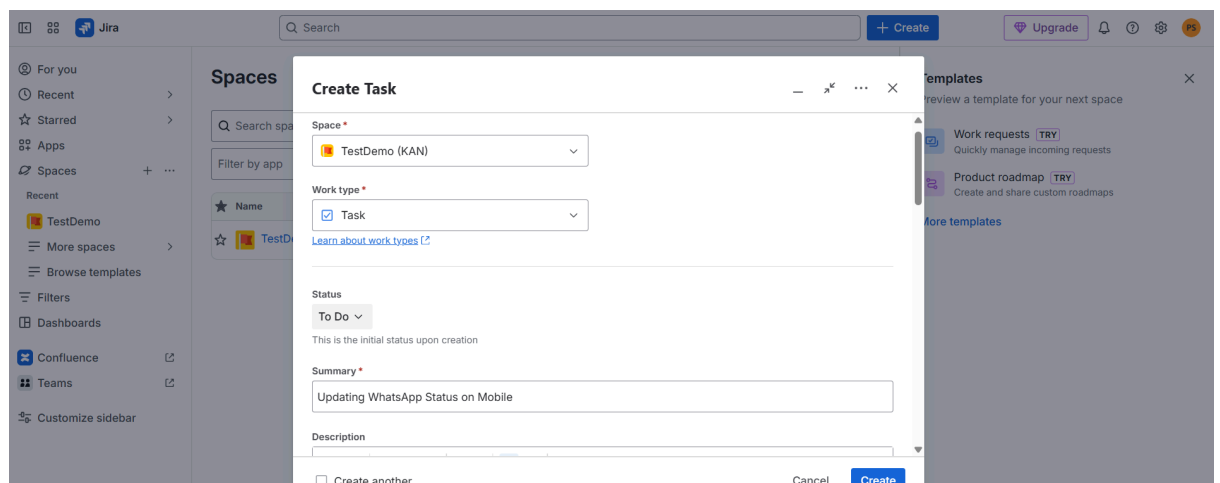

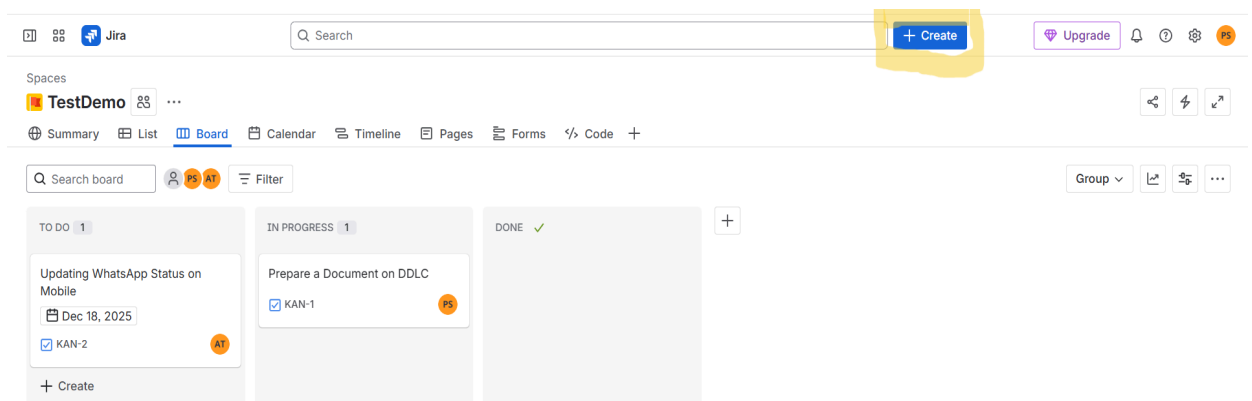

In Jira, teams use issues to track individual units of work that need to be completed. As per your organization's workflow, an issue can be a development task, a service request, or any other work that needs resolution.

Prerequisites

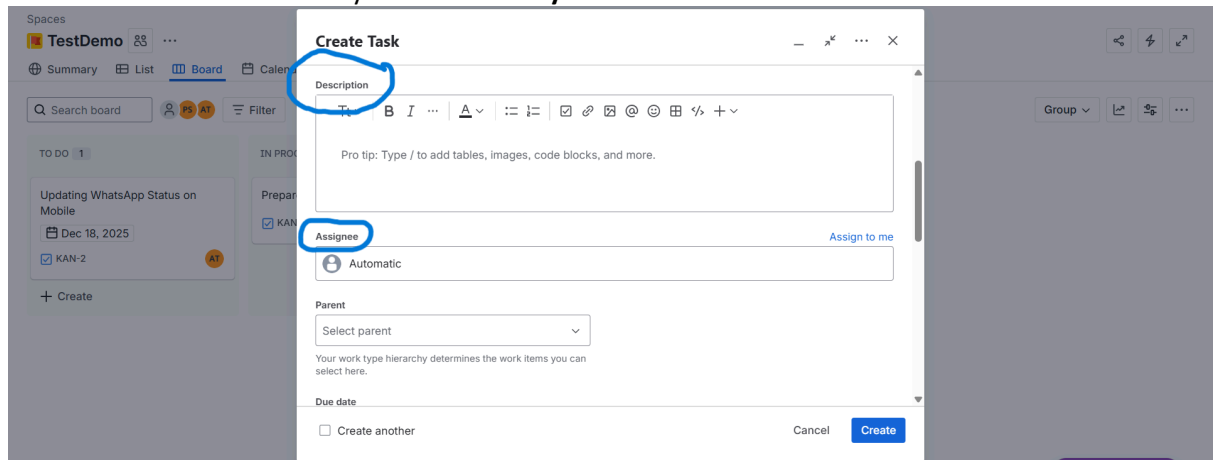

- An active Jira account
- An ongoing Jira project
- A designated team
- A stable internet connection

To assign,

1. On your browser, log in to your Jira account.
2. On the top navigation bar, click **Create**.

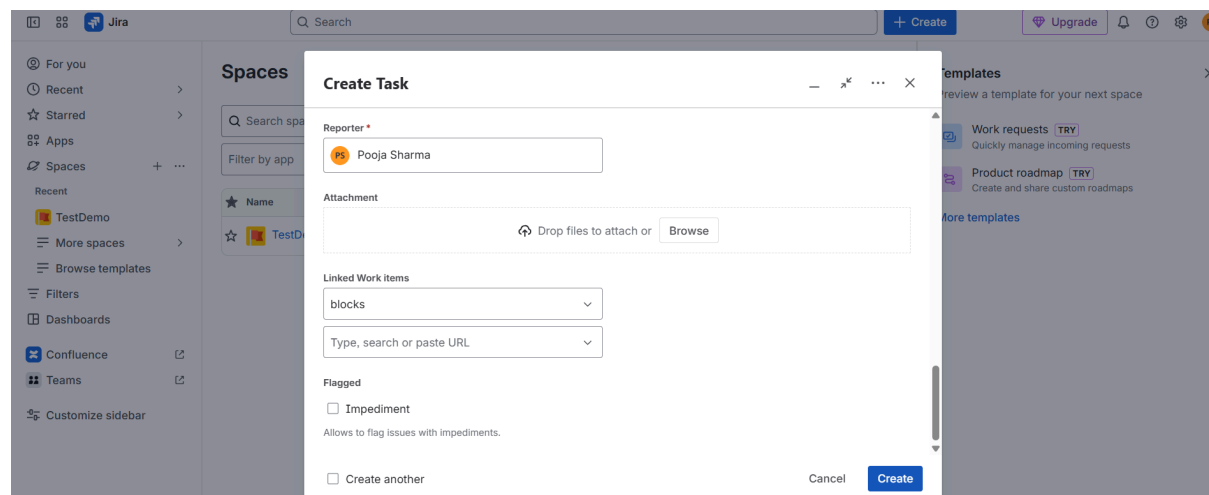

- a. Select your preferred Space from the **Space** dropdown.
- b. Choose **Task** from the **Work type** dropdown.
- c. Enter an issue summary in the **Summary** field.

The screenshot shows the 'Create Task' dialog box in Jira. The 'Description' field is highlighted with a blue circle. The 'Assignee' dropdown is also highlighted with a blue circle, showing 'Automatic' as the selected option. The background shows the Jira interface with a 'TestDemo' space selected.

- d. Add issue description in the **Description** field.
- e. Choose an assignee from the **Assignee** dropdown.

The screenshot shows the 'Create Task' dialog box in Jira. The 'Reporter' dropdown is highlighted with a blue circle, showing 'Pooja Sharma' as the selected option. The 'Attachment' field is also highlighted with a blue circle. The background shows the Jira interface with a 'TestDemo' space selected.

- f. Select a reporter from the **Reporter** dropdown.
- g. Click **Create** to submit the issue.

Your issue is now successfully assigned to the new user.
